DETAILED ACTION

EXAMINER'S AMENDMENT

The Board of Patent Appeals and Interferences affirmed the rejection against independent claim 1, but reversed all rejections against claim 11 dependent thereon. Pursuant to MPEP § 1214.06, an examiner's amendment to incorporate the subject matter of claim 11 into independent claim 1 is hereby set forth.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Hardy on March 15, 2006.

The application has been amended as follows:

In the claims,

Claim 1, on the last line before the end period the following recitation has been entered, --wherein the first and second electrodes are formed along the discharge spaces--.

Claims 11 and 17-20 have been cancelled.

Allowable Subject Matter

Claims 1-10 and 12-16 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

In view of the examiner's amendment to incorporate the subject matter of claim 11 into independent claim 1, claims 1-10 and 12-16 are found allowable for the reasons stated in the

Art Unit: 2879

decision of the Board of Patent Appeals and Interference dated January 10, 2006, see pages 6-7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
